Lion LED Head Light

SHEFFMED

BRITISH INNOVATION GLOBAL CONSCIENCE

The best LED head light on the market?

We think so, we have listened carefully to our customers and created a unique concept that incorporates a 200% increase in battery life in a lightweight and comfortable package. Wireless, ease of cleaning and simple adjustment all showcase what the UK can achieve against a sea of foreign imports.

Good Looking and Bright

Anatomically designed for a perfect fit

The Lion Headlight is an anatomically designed, single fit device that provides wireless high intensity LED light with unparalleled battery life, this is further enhanced by a quick release battery change feature providing near continuous use.

We are very proud of the Lion head light, it represents 18 months of research and development. It is a very British product, designed and developed in Sheffield and supports UK manufacturing.

Battery and Charger

Welcome to Sheffmed

We are proud to be different. Our customer driven approach together with a team orientated work ethos, means that you receive a friendly and reliable service. We are an ISO registered company and all our products carry the CE mark. Our team are committed to helping you to provide the best quality care for your patients, particularly with the new budget restraints and of course the ever changing environment. Please do not hesitate to contact us if you require any additional information.

What our customers say

"I only wish all companies were such a pleasure to work with..."

Within ENT at the John Radcliffe Hospital, Oxford, we have been purchasing single use equipment from Sheffmed since they begun trading in 2000.

This company provide excellent value for money in what are, let's face it, very challenging financial times for us in the NHS. Each and every member of their small workforce, from sales staff to despatch offer exceptional customer / after sales service, genuinely nothing is too much trouble. Sheffmed are also happy to discuss bespoke equipment trays / instruments tailored to your specific departments need, thereby saving money.

This company have 'saved' us on many occasions by ensuring next day delivery in times of stock crisis; for example a frantic phone call to them at 5pm recently had them supply (free of charge) all the single use instrument kits required for the ENT examination the following morning, for this and their ongoing outstanding support I would recommend them to colleagues unreservedly.

Sheffmed are a professional and supportive company providing equipment of superb quality for the workplace but they are also keen to support professional projects. They have recently agreed to sponsor the production & roll out of national aural care competencies working in conjunction with the Royal College of Nursing.

In these challenging times it is refreshing to work with a company who are not only visionary in their approach to business but also pride themselves on the personal touch & some might say, the old fashion values of looking after their customers."

The Sheffmed team

Sonia Hobson
Managing Director

sonia@sheffmed.com

Alan McNulty
Sales Director

alan@sheffmed.com

Sonia graduated from Lancashire University with a degree in European Business Studies. From university Sonia joined Downs Surgical and worked primarily in export until 1999.

Sonia established Sheffmed in 2000 with Alan and is responsible for the internal workings of the company. Sonia is married with 2 dogs, 2 cats and enjoys organising the company social calendar.

Alan started life out in the Forces before joining the NHS and working in procurement. In 1991 Alan joined the private sector and so began his career in sales and marketing.

Before establishing Sheffmed with Sonia, Alan was responsible for export sales in Asia Pacific for Downs Surgical. Alan is married with 1 dog and a motorbike that his wife does not know about.
